In this exhibition, the circular and ovoid shapes present in the artist’s sculptures accompany the viewer on a fluid and harmonious path which becomes a wonderful open-air gallery. The exhibition by artist Jimenez Deredia at Maurice A. Ferré Park encourages the dialogue between art and public spaces as a vital and socially relevant form. It is a combination gifted with strength that is visible in the emotion caused by the urban landscape in front of the sculptures. The aim of this exhibition is to promote not only the coexistence between people, but also the possibility of living a unique aesthetic experience.
