Jay Mikal is an American mixed-media artist born in 1984. His galaxy-inspired canvases merge bold color, abstract imagery, and sacred materials into fields that read as portals for spiritual introspection.

Resin, gold flake, precious stones, and acrylic recur. The work grows from meditation and an interest in space and the unknown — an invitation to intuitive insight and positive manifestation.

In 2025 The Wall Art Gallery, Miami, presented Cosmic Portals: The Visionary Worlds of Jay Mikal, with the artist present for the opening.
