Courtesy of the artist

Werner Bronkhorst is a contemporary artist born in Pretoria, South Africa, in 2001. He lives and works in Sydney. Two strands define the work: abstract sculptural grounds with hyper-realistic miniature people, and charcoal car drawings overlaid with bold text.

After a gap year that became permanent, he worked as a bespoke furniture designer, then returned to painting in 2022 — posting process videos that brought a wide audience. The miniature figures often channel a child's sense of a big world to explore.

Collaborations include Porsche and TAG Heuer around the Australian Grand Prix. In 2026 he announced HIGH, a major exhibition in Berlin. He is presented by The Wall Art Gallery, Miami.

“We are all living our own little lives. And we are all part of this bigger journey.”
